## TPD Insurance inside superannuation

Effective date: 5 October 2021

References to consumer in the TMD refer to the policy owner. When applying for the TPD Insurance SMSF plan, the policy owner is the trustee of the SMSF, and the insured person is a member of the SMSF. When applying for insurance cover in the Life Insurance Superannuation plan, the policy owner is Equity Trustees Superannuation Limited (ETSL) (the issuer and trustee of this product) as trustee of the National Mutual Retirement Fund (NMRF), and the insured person is a member of the NMRF. Where the information is specific to the insured person, the term 'insured person' will be used.

For insurance cover in the Life Insurance Superannuation plan, distributors must have regard to both this TMD and the AMP Elevate TMD – Risk Only Superannuation Product, issued by ETSL. Although the insurance and superannuation products are related (because the insurance product is acquired via the risk only superannuation product), they are distinct products with separate TMDs.

## Product description and key attributes (continued)

Where the consumer applies to have insurance cover in the TPD Insurance Superannuation plan, the risk only superannuation product issued by Equity Trustees Superannuation Limited (ETSL) as trustee of the National Mutual Retirement Fund (NMRF), the consumer applies to be a member of the NMRF.

The TPD Insurance Superannuation plan is a distinct product with its own TMD which distributors should refer to regarding the design and distribution conditions.

Premiums paid for the TPD Insurance SMSF plan are from superannuation contributions. Premiums paid for the insurance cover in the TPD Insurance Superannuation plan are from superannuation contributions or rollovers from another complying superannuation fund.

Any benefit is paid to the trustee, who will release the benefit in accordance with the relevant trust deed and superannuation law.

### TPD definition

The insured person is totally and permanently disabled if he or she:

- is unlikely to work in any occupation, or
- suffers a specific loss, or
- requires future care, or
- suffers significant cognitive impairment.

The insured person is also required to be considered as suffering from permanent incapacity.

### Premium type

The product offers the following premium types:

- **Stepped premiums.** Change each year on the plan extension date according to the age of the insured person. Generally, premiums increase as the insured person gets older.
- **Level premiums.** Don't increase each year due to the insured person getting older. Level premiums change to stepped premiums from the first extension date after the insured person turns 70 (or earlier if nominated).
- **Blended premiums.** Are stepped for the first 10 years followed by level until the insured person turns 60 and then stepped until the cover ends.

Premiums (and any applicable fees or government charges) can change, regardless of the premium type. If AMP Life review premium rates, any change in the premium rate will apply to all plans of the same type.

### Eligibility criteria
